

BEN MESSERLY

He/him/his

bamesslerly@gmail.com ◊ <https://ben-mess.com>

Minneapolis, MN 55413

ACADEMIC APPOINTMENTS

University of Minnesota <i>Particle Physics Postdoctoral Associate</i>	Minneapolis, MN 2020 - 2025
Carleton College <i>Visiting Assistant Professor of Physics</i>	Northfield, MN 2023
St. Olaf College <i>Adjunct Assistant Professor of Physics</i>	Northfield, MN 2022

INDUSTRY

Solution Design Group <i>Consultant — Machine Learning, AI, Data</i>	Golden Valley, MN 2025 - Present
· Thomson Reuters - AI engineering, backend software development · Sweet Harvest Foods - Data science, cloud	

EDUCATION

University of Pittsburgh <i>MS & PhD in Physics – Dietrich Fellow</i> <i>Single Charged Pion Production by Muon Neutrinos in the MINERvA Detector Using the NuMI Beam</i>	Pittsburgh, PA 2019
Bowdoin College <i>B.A. in Physics and Philosophy</i>	Brunswick, ME 2011

RESEARCH AREAS

Experimental high energy nuclear and particle physics, the Standard Model, neutrinos

High performance and scientific computing

Data science, machine learning, AI

Physics history, philosophy, and pedagogy

RESEARCH

Mu2e Experiment <i>Collaboration member</i>	Univ. of Minnesota, Fermilab 2020 - 2025
· Calibration and Analysis - Neural network based track alignment and energy calibrations. Analysis infrastructure tools development. · Detector Construction - Lead postdoc in the Heller UMN lab for construction of the Mu2e straw tube electron tracking detector during key phases and completion between 2020-2022. Responsibilities and tasks included: • Develop detector construction lab procedures, troubleshoot equipment, solve QA/QC problems, and write documentation. • Hire, supervise, schedule, and train ~100 undergraduate employees.	

- Mentor graduate, undergraduate, and REU student researchers.
- Convene weekly group staff meetings and present weekly production status to collaboration.
- Work with university services, scientists, and technicians to acquire parts and services and to solve lab problems.
- Use Python to analyze and visualize production data for rapid QA/QC decisions.
- Develop, manage, and deploy custom lab data collection software and SQL database in a production environment serving dozens of concurrent users. Train, manage, and mentor 2-3 student software development employees to build features and manage app stability. [Code link](#).
- Lab equipment: high-voltage supplies, circuits, soldering, Arduino/Raspberry Pi, high-pressured gas cylinders, DAQs, epoxies, laser machining, temperature controls, power tools, precision-measurement tools.

MINERvA Experiment

Collaboration member

Fermilab

2013 - Present

- **Pion Production Analysis** — Performed analysis of numerous pion measurements including *High Statistics Measurements of ν_μ Charged-Current Single π^+ Production with Zero Pion Kinetic Energy Threshold in MINERvA* — submitted to Physical Review Letters, July 2026.
- **MINERvA Analysis Toolkit** — As part of MINERvA's data preservation and [Open Data Product](#), designed and built a toolkit for standardization, centralization, and calculation of systematic errors, used for all collaboration publications, and adopted by other experiments. [Code link](#).
- **Neutrino Beam Flux Simulation** — Extensive studies of NuMI beam simulation, focusing uncertainties, hadron production uncertainties, and beam particle composition. [Code link](#).
- **Calibrations** — Official expert; emphasis on raw data, pedestals, and PMT gains.
- **Test Beam** — Led data validation group; aided in detector installation. Author on 47 collaboration publications, including several more in preparation, and 10+ as primary author or with direct involvement in analysis, writing, and internal review.

Neutrino Scattering Theory-Experiment Collaboration (NuSTEC)

Analyzer, Publications Working Group

Remote

2016 - 2025

- Performed cross-experiment neutrino scattering data analysis for 2016 and 2019 Tensions workshops and publications.
- Co-author and editor of three NuSTEC publications summarizing priority topics in neutrino scattering with a goal of identifying community funding priorities.

NuMI-X Group

Collaboration member

Fermilab

2014 - 2020

- Inter-experimental effort to advance knowledge of the NuMI Beam.
- MINERvA liaison and regular contributor to simulation and modeling improvements.

NA61/SHINE Experiment

Collaboration member, US-NA61 Group

CERN

2013 - 2018

- Data-taking run operations and data validation.
- Included in author list on 25 collaboration publications.

Solid State Acoustics Lab

Undergraduate Research Fellow

Bowdoin College

2010 - 2011

- Mapped acoustic wave propagation on the surfaces of various anisotropic crystalline solids.

TALKS AND PRESENTATIONS

Invited Talks

- *Pions Unlimited: Measurement of π^+ Down to Zero Pion Kinetic Energy* Fermilab
Joint Experimental-Theoretical Physics Seminar Jul 2026
- *Dethroning the Standard Model: Neutrinos and Muons at Fermilab* Oberlin College - Jan 2025
Invited Colloquia Univ. of Minnesota Duluth - Oct 2024
St. Olaf College - May 2023
- *Understanding Neutrino Cross Sections* Otranto, IT
Neutrino Oscillation Workshop Sep 2024
- *An Error Analysis Toolkit for Binned Counting Experiments* Remote
International Conference on Computing in High-Energy Physics (vCHEP) May 2021
- *Studying Neutrinos in the MINERvA Detector* Bowdoin College - Nov 2016
Invited Colloquia Franklin & Marshall College - Nov 2016
- *MINERvA in 10 Minutes* Fermilab
New Perspectives Conference Jun 2016
- *Charged Pion Production in MINERvA* Fermilab
New Perspectives Conference Jun 2016

- *Shaking Surfaces: Investigating Crystalline Solids with Ultrasound*
President's Science Symposium

Bowdoin College
Oct 2010

Conference Presentations and Posters

- ν_μ Charged Current Pion Production on Different Nuclei with MINERvA
European Physical Society Conference on High-Energy Physics
Univ. Hamburg, DE
Aug 2023
- *The Mu2e Straw Tube Tracking Detector*
European Physical Society Conference on High-Energy Physics
Univ. Hamburg, DE
Aug 2023
- *Charged Kaon Production By Neutrinos at MINERvA*
International Conference on High Energy Physics 2016
Chicago, IL
Aug 2016

Lecture Series

- *Particle Physics Lecture Series*
Bi-weekly seminars for summer research students
Univ. of Minnesota
2021
Introduction to Mu2e, The Standard Model, Physics of the Mu2e Lab, Particle Physics Detectors, The Mu2e Tracker, Data Science in Experimental Particle Physics

TEACHING

PHYS 4511 – Intro to Nuclear and Particle Physics
Course design, co-teaching, for senior undergraduate and early PhD students
Univ. of Minnesota
Fall 2024

PHYS 145 – Mechanics and Waves
Instructor – Newtonian mechanics for non-majors
Carleton College
Spring 2023

PHYS 386 – Advanced Lab
Instructor, for senior physics majors
St. Olaf College
Fall 2022

- Explored advanced topics in physics with emphasis on lab technique, analytical skills, independent work, and scientific writing.
- Students conducted two short experiments in the first half of the course and one self-designed experiment in the second half.
- Topics: laser technology and spectroscopy; atomic emission spectroscopy and energy splitting; positron spectroscopy; noise and entropy; Faraday rotation; liquid drop formation with a high-speed camera; scanning electron microscope.

MINERvA 101
Led annual week-long schools for new collaborator onboarding
Fermilab
2015 - 2019

- Seminars and full day activities to introduce MINERvA experiment concepts.
- Topics: detector calibrations, neutrino beam flux, systematic uncertainties.
- Organized social events and tours.

Teaching Assistant
Lab and recitation instructor, grader
Univ. of Pittsburgh
2013 - 2014

- PHYS 1371 – Introduction to Quantum Mechanics
- PHYS 0212 – Intro to Laboratory Physics
- PHYS 0175 – Basic Physics for Science and Engineering II
- PHYS 0110 – Intro to Physics 1

Teaching Assistant
Held office hours, grader
Bowdoin College
2009 - 2011

- PHYS 104 – Introductory Physics II

- PHYS 223 – Electric Fields and Circuits
- PHYS 224 – Quantum Physics and Relativity

STUDENT ADVISING, MENTORSHIP, AND RESEARCH

Mu2e Physics Lab

Manager and Mentor (Hired Student Researchers)

Univ. of Minnesota

2020 - 2025

- Klara Northrup (Fermilab), Hanna Hass (Fermilab), Zach Carpenter (Arizona State Univ. Physics PhD), Aseila Awad (NASA).

Neutrino Research

Principal Investigator

Carleton College

2023 - 2024

- *Numerical and Historical Review of Neutrino Detection Methods with Livingston-style Mass and Position Resolution Visualization.*
- Research collaboration with Adam Rothman (Carleton College) and Dr. Adam Lister (Univ. of Wisconsin Madison).

PhD Students

- Everardo Granados Vazquez (Univ. de Guanajuato PhD 2024, now at Florida State Univ.). *Multidimensional Differential Cross Section Measurement of Neutrino Pion Production at MINERvA.*
- Faraz Samavat (Univ. of Minnesota PhD expected 2025). *Machine Learning Based Calibration of the Mu2e Detector.*

Summer REU Students

Primary Advisor (under supervision of PI)

Univ. of Minnesota

2023 - 2024

- Haley Harms (Univ. of Northern Iowa), Synnove Hunnes (Gustavus Adolphus College). *Booster Neutrino Beam Monitoring with the Short Baseline Neutrino Detector Cosmic Ray Tagger.*
- Will Leija (Texas State Univ.). *Tension & Leak Material Assessment of Mu2e Drift Straws.*

Applied Computer Science for the Mu2e Experiment

Manager and Mentor (Hired Student Researchers)

Univ. of Minnesota

2020 - 2023

- Trained and managed undergraduate research assistants in various computer science projects used by the Mu2e experiment.
- Python, app and full stack software development, version control, data management, data science.
- Isaiah Wardlaw (Boston Univ. Physics), Adrian Leal (Microsoft), Adam Arnett (Medtronic), Himanshu Joshi (Perficient), Matthew Breach (UMN), Oscar Wiestling (UMN).

OUTREACH

Climate and Diversity Committee Member

Department of Physics and Astronomy

Univ. of Minnesota

Oct 2021 - 2025

- Advocacy group building welcoming and supportive environment with special emphasis on inclusion, diversity, and community building. Organizes activities, hosts workshops, distributes resources, and facilitates conflict mediation.
- Postdoc representative. Organize postdoc coffee hours and social events.

Minnesota State Science Fair Judge

Minnesota Academy of Science

St. Paul, MN

Mar 2023

High School Colloquia on Particle Physics

Mu2e lab tours and hour-long lectures introducing particle physics

Univ. of Minnesota

2021 - 2022

- Quarknet High School Teachers Group - *Aug 2021, Jun 2022, Aug 2024*
- Blake High School Student Group - *May 2022*
- College in the Schools: Physics by Inquiry High School Teachers Group - *Nov 2021*

Neutrino Hall Underground Tour Guide

Fermilab
2016 - 2019

Affirmative Action and Diversity Committee Member

Department of Physics and Astronomy

Univ. of Pittsburgh
2015 - 2018

News Article

SCHOLARSHIPS AND AWARDS

Postdoc Association Award

For outstanding contributions to teaching and mentoring

Univ. of Minnesota
Aug 2022

Computational and Data Science School for HEP (CoDaS-HEP)

Princeton Univ.
Jul 2022

International Neutrino Summer School Director Award

Historical survey of neutrino detector mass and position resolution

Fermilab
Aug 2017

U.S. DOE Office of Science Graduate Student Research Award

Full support to pursue PhD studies at Fermilab

Fermilab
2016 - 2017

PITT PACC Fellowship

For Dissertation Research in Neutrino Physics

Univ. of Pittsburgh
2015

K. P. Dietrich School of A & S Fellowship

Full support in recognition of outstanding undergraduate record

Univ. of Pittsburgh
2012 - 2015

Surdna Fellowship

For Research in Solid State Physics

Bowdoin College
2010

TECHNICAL SKILLS

Programming

Python
C++
Linux/Unix
Databases
GUIs, WebApps

Data Science/Computing

Industry Data Science
Monte Carlo Simulation
Data ETL
High Throughput Computing
Cloud (AWS, Azure, GCP)

Machine Learning

Tree-based methods
Reinforcement Learning
Neural Networks
Supervised Learning

GRADUATE COURSEWORK

Advanced Classical Electricity and Magnetism
Advanced Particle Physics
Computational Methods
Dynamical Systems
Field Theory

Mathematical Methods in Physics
Non-Relativistic Quantum Mechanics
Teaching of Physics
Thermodynamics & Statistical Mechanics
